WHERE FIRE MEETS FINESSE

About us

Plank + Ember was born in 2024 from a simple idea captured in a single image: a hand-built, timber-and-steel bench that turned a backyard into a gathering place. From that spark came a brand devoted to making outdoor spaces feel like the best room in the house.

We are Australian-owned, designing every model for the way Australians actually live – sun, salt, rain, red dust, late-arvo swims, long lunches, and quick Tuesday night cook-ups. Our kitchens are fully assembled, customisable, and built from 100% SUS304 stainless steel with premium componentry, so they look incredible on day one and keep performing for years.

This isn't about buying a unit. It's about investing in a lifestyle based on connection, ease, and pride of place, whether it's your forever home, your weekender, or the new build you've dreamt about for years.
